## **Narrative in Support of Petition to Amend the Zoning Regulations of Howard County**

### **Response to Section 1**

The Petitioner proposes to amend Section 127.6 of the Howard County Zoning Regulations applicable to the TNC (Traditional Neighborhood Center) zoning district. The purposes of the proposed amendments are: 1) to expand the uses permitted as a matter of right to include amusement facilities, and to permit limited drive through service for certain financial type institutions and drug stores in Route 40 Corridor development projects encompassing at least 20 gross acres of land in the TNC zoning district; 2) to permit single story stand alone fast food restaurants without a drive through in all TNC development projects; 3) to permit increased maximum height restrictions for structures up to a maximum height of 65 feet provided 2 feet of additional setback above the minimum setback is provided for each foot of increased height above 55 feet; 4) to reduce the minimum structure and use setbacks from residential lots for R-ED, R-20, R-12 or R-SC districts from 100 feet to 75 feet, except for certain accessory structures and uses which will be subject to a new 30 foot structure and use setback; 5) to clarify that the requirements for non-residential and residential development under §127.6.F are applicable only to lots adjoining Route 40 and Frederick Road, and not to other arterial or collector roadways; 6) to permit flexibility as to the location or placement of a building's primary entrance for buildings facing the above mentioned right-of-ways provided the building has a public entrance that is accessible from the side of the building facing the respective right-of-way; 7) to reduce the minimum amount of commercial development required per dwelling unit developed in the TNC zoning district from 300 square feet per dwelling unit to 200 square feet per dwelling unit and to permit the Director of Planning and Zoning to further reduce the required amount of commercial development to 100 square feet per dwelling unit under certain conditions; 8) to clarify that the

requirement for commercial development in the TNC zoning district can be satisfied by the continuing presence of existing commercial development that is intended to remain as a part of the TNC development project; and 9) to provide the Director of Planning and Zoning the ability to reduce or eliminate the requirement that 15% of the dwelling units in a TNC development project be moderate income housing units provided after considering a housing needs study certain determinations are made regarding the adequacy of moderate income housing in the surrounding neighborhood and community.

#### **Response to Section 4**

The amendments described above are being proposed in order to respond to the current and projected future market demands for commercial and multi-family residential development in the Route 40 Corridor. The proposal to expand the list of uses permitted as a matter of right in the TNC zoning district to include amusement facilities is intended to respond to the market demand for recreation and entertainment. The inclusion of this permitted use within the TNC district will permit the residents of the TNC development and the surrounding community to satisfy their needs and desires for recreation and entertainment locally without the need to travel long distances.

The proposal to permit single story fast food restaurant uses within all TNC projects is likewise a response to the current and projected market demand for fast food retail space within the Route 40 Corridor. Experience gained subsequent to the 2004 Comprehensive Zoning has demonstrated a rather weak market demand for vertically integrated retail uses within the Route 40 Corridor and elsewhere. In contrast, there remains a viable demand for single story fast food retail uses within the Route 40 Corridor. Permitting such fast food retail uses within TNC

development projects will permit the residents of these TNC communities to shop locally for their fast food retail needs, thus reducing the demands on local roads and highways.

The proposal to permit certain drive-through retail services for banks, restaurants, drug and cosmetic stores and similar uses is intended to respond to the current and projected market demands of such businesses. Again, experience gained subsequent to the 2004 Comprehensive Zoning has demonstrated that the businesses identified above require the ability to have (at a minimum) limited drive-through services. The proposal to permit such drive through service uses provided the drive-through itself does not face a public road is intended to accommodate this market demand and requirement.

#### **Response to Section 5**

The proposed amendments to the TNC zoning regulations described above are very much in harmony with the newly adopted General Plan for Howard County (see, PlanHoward 2020). In particular, the proposed amendments will promote the goals set forth in POLICY 6.1 – Maintain adequate facilities and services to accommodate growth; as well as POLICY 6.1.d - Reduce competition for land resources by promoting more compact development in appropriate growth and revitalization areas. Note that in accordance with PlanHoward Map 6-3, all areas within the county containing TNC zoned property have been designated at Tier I Growth Tiers in accordance with the Maryland Sustainable Growth and Agricultural Preservation Act.

#### **Response to Section 6 and Section 7**

The proposed zoning regulation amendments provided herein are in harmony with and will promote the legislative intent of the zoning regulations as set forth in Section 100A. Specifically, the proposed regulations will benefit the public by preserving and promoting the health, safety and welfare of the community. In particular, the proposed

zoning amendments help to reduce competition for scarce land resources by permitting more compact development in the TNC zoning district. This in turn will help to ensure the adequate supply of housing in a suitable living environment within the economic reach of all citizens.

Similarly, amending the zoning regulations as proposed will permit more flexibility in the design of residential, commercial and retail uses in the TNC district which will help to ensure that Howard County citizens continue to benefit from and enjoy the availability of conveniently located and well designed residential housing together with commercial and retail businesses in the communities where they live.

#### **Response to Section 8**

If this Petition is granted, all TNC development projects within the county, regardless of size, would be permitted to have amusement facilities as a use permitted as a matter of right. In addition, all TNC development projects would be permitted to have blueprinting, printing, duplicating or engraving service uses up to a maximum size of 5,000 square feet. The remainder of the proposed zoning text amendments set forth herein would apply only to those TNC projects consisting of 20 gross acres or more or to TNC projects that adjoin Route 40. Presently, the only TNC zoned properties meeting those requirements in the county are the Normandy Shopping Center and the Chatham Shopping Center.

## **SECTION 127.6: TNC (TRADITIONAL NEIGHBORHOOD CENTER) OVERLAY DISTRICT**

### **A. PURPOSE**

This district is intended to provide for the development of pedestrian-oriented, urban activity centers with a mix of retail, service, office and residential uses. These centers should be located near Route 40 and close to residential communities that will benefit from a pedestrian-oriented local business area. The requirements of this district, in conjunction with the Route 40 Manual and the public improvements recommended by the Route 40 Enhancement Study, will result in development that will strengthen nearby communities, provide for safe and convenient pedestrian travel, and improve the streetscape of Route 40 and intersecting roads.

Sites within the TNC Overlay may continue to be used, developed and redeveloped in accordance with the underlying zoning. The intent of this district is to provide an alternative method of development for property owners who choose to comply with the Route 40 Manual and the requirements of this district. Development complying with the TNC district requirements will be permitted to include residential development and will have greater flexibility in some bulk requirements.

### **B. APPLICATION OF TNC DISTRICT**

Sites in the TNC district may be developed in accordance with either the underlying district or this overlay district. The initial subdivision plan or site development plan for new development, redevelopment or alteration of a site must indicate which set of requirements will be used. For sites using the TNC district, the requirements of this district supersede the underlying district.
